RAMZAN ANSARI

Margao, Goa | +91 9823211848 | ansariramzan2004@gmail.com | LinkedIn | GitHub

Summary

Computer Engineering student with hands-on software development experience gained through internships and projects. Focused on backend logi c, workflow automation, database systems, and AI/ML integration to build practical software solutions.

Education

Shree Rayeshwar Institute of Engineering and Information Technology — Shiroda, Goa
Bachelor of Computer Engineering (Honors in AI & ML) – CGPA: 8.50 — *Current*

A.I.M Higher Secondary School of Arts, Commerce & Science — Rumdamol, Margao, Goa
Higher Secondary Certificate (Class XII) – 73% — *2023*

A.I.M English Medium High School — Rumdamol, Margao, Goa
Secondary School Certificate (Class X) – 86% — *2021*

Experience

Software Developer Intern (Mobile App Department) — Aug 2026 – Oct 2026
RMJV Innovation Pvt. Ltd. — *Goa, India*

- Developed a **GitHub Artifact Release Assistant** and a **Codebase-Aware Root Cause Analysis (RCA) System** to streamline mobile deployment workflows and issue investigation.
- Built backend automation scripts in **Python** and integrated **REST APIs** alongside **GitHub CLI** to automate release management across open-source and internal repositories.
- Implemented **Model Context Protocol (MCP)** servers and **Claude Skills** to enable structured, evidence-based debugging and automated triage.

Projects

1. **GitHub Artifact Release Assistant** | *Python, React.js, GitHub CLI, Git*
   - Built an automated release pipeline that validates Android AAR artifacts and prompts developers with artifact-specific checks to gather required release metadata.
   - Automated end-to-end GitHub workflows including artifact uploads, target branch updates, and pull request creation via **GitHub CLI**.
2. **Codebase-Aware Root Cause Analysis (RCA) System** | *Python, MCP, REST APIs, Claude Skills, Codebase Memory MCP*
   - Engineered a diagnostic tool combining mobile runtime evidence with codebase-graph context to accelerate structured root-cause investigation.
   - Leveraged **Codebase Memory MCP** and **Claude Skills** to map crash diagnostics directly to relevant repository modules and dependencies.
3. **Course Management Website** | *HTML, CSS, JavaScript, PHP, MySQL*
   - Developed a full-stack web application for managing academic courses, student enrollments, and course materials.
   - Designed a relational **MySQL** database schema and implemented server-side CRUD operations using **PHP**.

Technical Skills

Languages: C, C++, Java, Python, JavaScript, PHP, SQL, HTML/CSS

Frameworks & Developer Tools: React.js, Model Context Protocol (MCP), Claude Skills, Git, GitHub CLI, GitHub, Postman, VS Code, PyCharm, XAMPP

Databases: MySQL

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOPs), DBMS, Operating Systems, Computer Networks

AI/ML Foundations: Artificial Intelligence, Machine Learning, Data Analytics
